23 therapists + 2 admin

0
PSYCHIATRISTS
Critical gap vs ANIMA

2
COUPLES THERAPISTS
Julia Bochko, Krystyna Puzdrowska

11/23
WITHOUT THERAPY SCHOOL
48% of therapists

🔴 **Critical Gap:** WCP has **zero psychiatrists** on staff. Competitor ANIMA has an in-house psychiatrist, enabling medication management and comprehensive ADHD pathways. This is WCP's #1 strategic HR gap.

🟡 **Opportunity:** Only 11 of 23 therapists are enrolled in formal therapy schools. Investing in training for the remaining 12 could generate 720K–1.07M PLN additional annual revenue with 6-9 month payback period.

SECTION 02

Team Overview

Education levels · Therapy school distribution · Specializations

THERAPY SCHOOL DISTRIBUTION

SCHOOL	COUNT	THERAPISTS	CAPACITY STATUS
CBT (Cognitive-Behavioral)	6	Ewa Kocięcka-Walukiewicz, Julia Bochko, Krystyna Puzdrowska, Małgorzata Dawidziuk-Kafel, Anna Piotrowska, Wirginia Horszwald	Strongest
Gestalt	3	Anita Kraczyna, Kamila Wodowska, Patrycja Wiśniewska	Moderate
Psychodynamic	2	Agata Skowronek, Malwina Marciniszyn	Thin
Integrative	1	Joanna Szylko-Kwas	Single point

Systemic	1	Anna Piotrowska (also CBT)	Single point
In Training / None	**12**	Beata Korycka, Julia Dąbrowska, Kamila Świniarska, Katarzyna Grzegorczyk, Marta Kmieć, Marta Minko-Jankowska, Monika Iwanowicz, Paula Kamińska, Tomasz Reszka, Zuzanna Chodkowska, + 2 in progress	**Major Gap**

EDUCATION LEVEL DISTRIBUTION

21
MASTER'S (MGR)
84% of staff

2
BACHELOR'S (LIC)
8% of staff

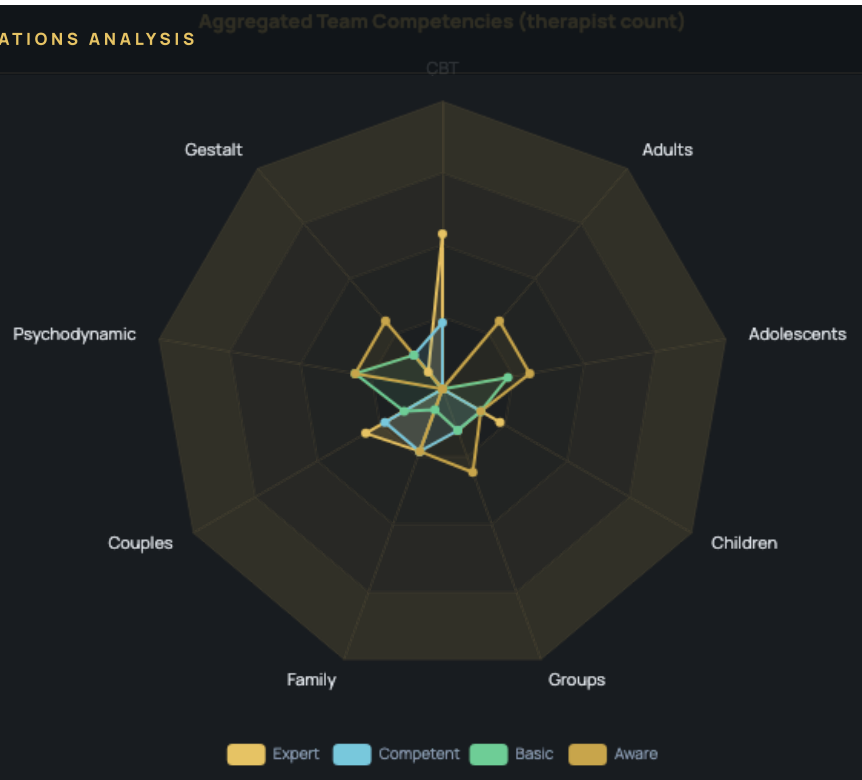
2
OTHER / IN PROGRESS
8% of staff

CLIENT POPULATION COVERAGE

POPULATION	THERAPISTS	COVERAGE
Children	Julia Dąbrowska, Kamila Świniarska, Katarzyna Grzegorczyk, Marta Minko-Jankowska, Paula Kamińska, Zuzanna Chodkowska, Anna Piotrowska	**Strong (7+)**
Youth (13-17)	10+ therapists	**Excellent**
Adults	15+ therapists	**Excellent**
Couples	Julia Bochko, Krystyna Puzdrowska, Małgorzata Dawidziuk-Kafel, Anna Piotrowska	**Limited (4)**
Families	Anna Piotrowska	**Minimal (1)**
Adults needing medication	N/A — no psychiatrist	**None**

> **Strength:** WCP has excellent coverage for children and youth — a significant competitive advantage vs ANIMA (whose children's services are NFZ-only). This is a strategic asset to promote.

TEAM COMPETENCY RADAR



SECTION 03

Qualification Gaps

Critical gaps vs competitors · 12 without school enrollment

🔴 Critical Gap #1: No Psychiatrist

WCP cannot prescribe medication or offer psychiatric assessment. This is WCP's #1 capability gap vs ANIMA and limits:

- Independent ADHD diagnosis pathway (must refer out)
- Medication management for patients
- Crisis intervention requiring pharmacological support
- Insurance partnerships requiring psychiatric coverage

12
THERAPISTS WITHOUT SCHOOL
52% of therapist pool

2
COUPLES SPECIALISTS
High-value service line (500 PLN/session)

1
FAMILY THERAPIST
Single point of failure

THERAPISTS WITHOUT FORMAL SCHOOL ENROLLMENT

📋 Priority Candidates for School Enrollment

Recommended first wave (6 therapists):

- Beata Korycka — In progress psychology studies, strong clinical potential
- Julia Dąbrowska — Recent grad (2022), children specialization, CBT ideal fit
- Kamila Świniarska — Recent grad (2025), children focus, early training window

Katarzyna Grzegorczyk — 2022 grad, generalist, flexible modality
Marta Kmieć — 2019 grad, youth focus, established track record
Marta Minko-Jankowska — 2021 grad, children/youth, high engagement
Estimated cost: 180K–240K PLN for first wave (30-40K per therapist for 4-year program)

COUPLES THERAPY GAP

CURRENT COUPLES THERAPISTS	SCHOOL	SESSION RATE
Julia Bochko	CBT	**500 PLN**
Krystyna Puzdrowska	CBT	**500 PLN**
Małgorzata Dawidziuk-Kafel	CBT	**500 PLN**
Anna Piotrowska	CBT + Systemic	**500 PLN**

> **Revenue Opportunity:** Couples therapy at 500 PLN/session (vs 200 PLN individual) represents a 2.5× revenue multiplier. Adding just 2-3 trained couples therapists could generate 384K–576K PLN additional annual revenue.

EXPERIENCE DISTRIBUTION

EXPERIENCE LEVEL	COUNT	THERAPISTS
Senior (15+ years)	2	Ewa Kocięcka-Walukiewicz (2010), Wirginia Horszwald (2010)
Mid-level (5-14 years)	5	Małgorzata Dawidziuk-Kafel (2010), Paula Kamińska (2015), Marta Kmieć (2019), etc.
Early Career (2-5 years)	8	Julia Dąbrowska (2022), Katarzyna Grzegorczyk (2022), Tomasz Reszka (2022), etc.
Recent Graduates (2025)	5	Joanna Szylko-Kwas, Kamila Świniarska, Monika Iwanowicz, Nina Kondrusik, Zuzanna Chodkowska

SECTION 04

Training Priority Matrix

School enrollment timeline · Budget · Impact scores

426–580K
YEAR 1 INVESTMENT (PLN)
First wave + supervision

720K–1.07M
PROJECTED REVENUE RETURN
6–9 month payback

6.6–7.9K
MONTHLY SUPERVISION
Ongoing professional development

TRAINING PRIORITY MATRIX

QUICK WINS – HIGH IMPACT, LOWER EFFORT

Group Therapy Facilitator Training — 5 therapists nominated
Online Therapy Certification — Expand reach
Couples Therapy Short Course — 2-3 therapists

STRATEGIC – HIGH IMPACT, HIGHER EFFORT

First Wave School Enrollment — 6 therapists into CBT/Gestalt

Psychiatrist Recruitment — Close #1 gap
Family Therapy Certification — Expand modality

🟡 TACTICS – LOWER IMPACT, LOWER EFFORT

Continuing education workshops
Peer supervision groups
Conference attendance

🔴 DEPRIORITIZE – LOWER IMPACT, HIGHER EFFORT

Non-evidence-based modality training
Niche specializations with low demand
Academic research tracks (vs clinical)

SCHOOL ENROLLMENT TIMELINE

PHASE	TIMELINE	ACTION	INVESTMENT
Phase 1	Q2 2026	Identify 6 first-wave candidates, confirm interest, budget allocation	Planning
Phase 2	Q3 2026	Enroll 6 therapists in CBT/Gestalt programs	180-240K PLN
Phase 3	Q4 2026	Begin supervision programs for all trained therapists	6.6-7.9K/mo
Phase 4	2027+	Second wave enrollment, couples therapy expansion, family therapy	Additional 200-300K

ROI Projection: Each therapist who gains school certification can typically increase session rates 20-30% and expand patient segments. With 6 therapists in Wave 1 at 20 sessions/week, this represents ~120 sessions/week × 52 weeks × 50 PLN increase = 312K PLN annual uplift. Over 3 years, cumulative ROI exceeds 3×.

SECTION 05

Recommendations

Priority hiring and training actions

PRIORITY ACTIONS

P1
Recruit a Psychiatrist
CRITICAL This is the single highest-leverage strategic move. A psychiatrist on staff enables: independent ADHD diagnosis pathway, medication management, insurance partnerships, and parity with ANIMA's offering.
Target: August 2026 start
Budget: 15-25K PLN/month (B2B or part-time initially)
Job posting: Ready for distribution
P2
First Wave: 6 Therapists into CBT/Gestalt Schools
HIGH IMPACT Expands certified capacity in the two most demanded modalities. Prioritize recent graduates with strong clinical potential.
Candidates: Julia Dąbrowska, Kamila Świniarska, Katarzyna Grzegorczyk, Marta Kmieć, Marta Minko-Jankowska, Beata Korycka

Cost: 180-240K PLN over 4 years
ROI: 720K–1.07M PLN over 3 years

P2

Add 2-3 Couples Therapists

REVENUE OPPORTUNITY Couples therapy at 500 PLN/session represents a 2.5× revenue multiplier vs individual sessions. Current capacity (4 therapists) is insufficient for demand.

Approach: Train existing therapists OR recruit specialists

Revenue potential: 384K–576K PLN/year

P3

Group Therapy Facilitator Training

MEDIUM PRIORITY Group therapy is high-margin (150 PLN/session per participant) and underutilized at WCP. 5 therapists nominated.

Supervision budget: 6,600–7,900 PLN/month ongoing

P3

Systemic Family Therapist

MEDIUM PRIORITY Currently only Anna Piotrowska covers family therapy. Single point of failure risk.

LONG-TERM DEVELOPMENT FRAMEWORK

Investment → Revenue Framework

HR development is not a cost center — it's a revenue multiplier. Every therapist who gains certification unlocks:

- Higher session rates (20-30% increase)
- New patient segments (couples, families, groups)
- Insurance panel eligibility
- Reduced supervision dependency
- Competitive differentiation

Year 1 total investment: 426K–580K PLN
3-year projected return: 720K–1.07M PLN

Data Sources

Source files · Methodology · Updates

PRIMARY SOURCE FILE

FILE	CONTENTS	LAST UPDATED
Zespół WCP - kwalifikacje pracowników.xlsx	Full staff roster with education, therapy school, specializations, locations	April 2026

DATA POINTS TRACKED

CATEGORY	DETAILS
Basic Information	Name, education level (mgr/lic), graduation year
Therapy Schools	CBT, Gestalt, Psychodynamic, Systemic, Integrative, None/In Training
Client Populations	Children, Youth, Adults, Couples, Families

Administrative Roles	Practice Manager, Admin

METHODOLOGY NOTES

- "In training / None" indicates psychologists without formal therapy school enrollment
- Some therapists hold multiple certifications (e.g., Anna Piotrowska: CBT + Systemic)
- Graduation year indicates experience level, not certification year
- Client population assignments based on self-reported specializations
