SECTION 1

Current State — WCP Social Media Profile Audit

What we have, what we lack, where we start

Before activating, we need to understand the starting point. Below is an audit of the current state of WCP social media profiles.

INSTAGRAM

INSTAGRAM **@wcp.psychoterapia**

METRIC	CURRENT STATE	TARGET (6 MONTHS)
Followers	~200–400 (estimated)	1,500+
Posting frequency	Sporadic / inactive	4–5x/week
Content type	Mostly static posts	Reels + Carousels + Stories
Stories activity	None / rare	Daily 3-frame minimum
Highlights	Not organized	6–8 branded highlights
Bio link	Website only	Linktree with 5+ links

Key issue: The profile exists but is not actively managed. No consistent visual identity, irregular posting, no Reels strategy — and that is the biggest reach engine on Instagram in 2026.

FACEBOOK

FACEBOOK **Warmińskie Centrum Psychoterapii**

METRIC	CURRENT STATE	TARGET (6 MONTHS)
Page likes	~300–600 (estimated)	1,200+
Posting frequency	Occasional	3–4x/week
Events used	No / rarely	Monthly events + workshops
Reviews/ratings	Some reviews	50+ reviews, active responses
Messenger	Passive	Auto-reply + active booking
Groups	None	WCP Community group (phase 2)

Key issue: Facebook is still the most important platform for the 30–55 age group in Poland. Lack of Events usage, Messenger as a contact channel, and insufficient response to reviews are the three biggest gaps.

TIKTOK

TIKTOK **@wcp.psychoterapia**

METRIC	CURRENT STATE	TARGET (6 MONTHS)
Account	Not created	Active, 2–3x/week
Followers	0	800+
Content type	N/A	Short therapy tips, myth-busting
Videos posted	0	30+ (first 90 days)

Key issue: TikTok does not exist — and it is the platform with the fastest organic reach in Poland. Short psych-educational formats are a perfect fit for therapy. We do not need to dance — we just need to talk about mental health in an accessible way.

> **Audit summary:** WCP has a foundation — brand, team, local trust. But on social media it operates like a centre that "must have a profile" rather than a brand that leads the conversation. Moving from passive presence to active communication is the main goal of this strategy.

SECTION 2

Content Calendar — 60+ Key Dates

Key dates organized by month, with highlighted top 10

The calendar contains 60+ awareness dates, Polish holidays, and seasonal occasions — each linked to a specific WCP service. This is not a "what to post" list — it is a map of opportunities. We pick 3–5 dates per month and build campaigns around them.

SECTION 3

Platform Strategy — Instagram, Facebook, TikTok

Each platform has its role in the ecosystem

INSTAGRAM — PRIMARY VISUAL PLATFORM

INSTAGRAM

Carousel + Reels Strategy

Role: Primary platform for brand building, psychoeducation, and conversion. Instagram is where patients look for therapists — and where therapists show they are real.

Posting Cadence

FORMAT	FREQUENCY	PURPOSE
Carousel	2x/week (Wt, Czw)	Psychoeducation, myths, how-to
Reels	2–3x/week	Reach, virality, tips 30s
Static post	1x/week (Nd)	Quote, reflection
Stories	Daily (min 3 frames)	Engagement, polls, behind-the-scenes
Live	2x/month	Q&A with a therapist, deep-dive topics

Reels Strategy

Therapist tips: "3 breathing techniques for anxiety" (30s) — 2x/month

Myth busting: "Does a therapist judge?" (15s) — 1x/month

Day in the life: "Dzień z życia terapeuty WCP" (45s) — 1x/miesiąc

Client questions: "Most common questions at a first session" (60s) — 2x/month

Trending audio: Adapting trends to therapy context — when an opportunity arises

Hashtag Strategy

Branded (always): #WCP #WarmińskieCentrumPsychoterapii #TerapiaOnline

Mental health: #MentalHealth #Therapy #Psychology #Depression #Anxiety

Local: #Olsztyn #Elbląg #Ostróda #Warmia #Mazury

Services: #TerapiaPar #GrupaWsparcia #ADHD #Trauma

Awareness: #InternationalWomensDay #WorldMentalHealthDay

Avoid: Overly clinical terms (#MajorDepressive Disorder), English-only hashtags.

Stories Daily Structure

🌅 **Morning: Quote / Affirmation**
"Start the day with one thing you are grateful for"

☀️ **Midday: Psychoeducation / Poll**
"Czy czujesz się przytłoczony/a dziś?" (Tak / Czasem / Nie)

🌙 **Evening: Reflection / Q&A**
"What supported you this week?" lub terapeuta takeover

FACEBOOK

Community + Events Strategy

Role: Community hub for the 30–55 local community. Facebook is where parents look for help for their children, where we organize events, and where Messenger is the fastest contact channel.

Posting Cadence

FORMAT	FREQUENCY	PURPOSE
Link posts (blog/articles)	1–2x/week	SEO, authority, website traffic
Event posts	Monthly	Workshops, webinars, open days
Community posts	1x/week	Polls, questions, local engagement
Video / Live	2x/month	Q&A, therapist spotlights
Messenger	Daily monitoring	Booking inquiries, quick support

Events Strategy

Monthly open Q&A: "Zadaj pytanie terapeucie" — Facebook Live, 30 min

Workshops: Stress workshops, mindfulness, relationship boundaries — FB Events + registration

Open days: "Otwarte Drzwi WCP" — zaproszenie do poznania zespołu, space tours

Awareness weeks: World Mental Health Day — full week events

Messenger as Booking Channel

Auto-reply: "Thank you for your message! 🤍 We reply within 1 hour during business hours (8–20). Urgent? Call: 576 081 786 or book a session: wcp.com.pl"

TIKTOK — SHORT-FORM THERAPY TIPS

TIKTOK

Short-Form Therapy Content

Rola: Discovery platform — fastest organic reach in Poland, ideal for psychoeducation in short, accessible format. We do not need to dance — we need to talk about mental health in a way people want to share.

Posting Cadence

FORMAT	FREQUENCY	PURPOSE
Therapy tips (15–30s)	2x/week	Reach, saves, shares
Myth busting (15–30s)	1x/week	Education, virality
"Did you know..." series	1x/week	Awareness, curiosity
Trending sounds	As opportunities arise	Algorithm boost

Content Examples

"3 things you did not know about social anxiety" (30s)

"Dlaczego wypalenie zawodowe nie jest lenistwem" (25s)
"What really happens at a first therapy session" (45s)
"A sign you need therapy — that no one talks about" (20s)
"ADHD in adults: 5 myths" (carousel-style, 30s)

TikTok Hashtag Strategy

#psychology #therapy #mentalhealth #depression #anxiety #burnout #ADHD #trauma
#olsztyn #warmia #mazury (local discovery)
#fyp #foryou (algorithm amplifiers)

> **Key to TikTok:** Authenticity > Production. Record with your phone, speak directly, be real. Polish TikTok audiences value honesty — a therapist in a sweater talking about anxiety gets more reach than a produced reel with After Effects.

SECTION 4

Profile Unification — Consistent Visual Identity

One brand, three platforms, one voice

> **Rule:** Anyone who visits a WCP profile — on Instagram, Facebook, or TikTok — should immediately know: this is Warmińskie Centrum Psychoterapii. Consistency builds trust. Trust builds bookings.

COLOR SCHEME

COLOR	HEX	USAGE
Obsidian (dark)	#101418	Backgrounds, post backgrounds, story bases
Gold (primary accent)	#e6c364	Headlines, CTAs, accents, borders, icons
Gold Dim	#c9a84c	Secondary accents, hover states
White	#ffffff	Body text, WCP logo on dark backgrounds
Muted Blue-Grey	#8a9bb0	Secondary text, captions

LOGO USAGE

Profile pictures: WCP logo (white on dark) on all three platforms — identical profile photo
Cover photos (Facebook): Dark background + logo + tagline "Professional psychological help"

Highlights covers (Instagram): Dark circles with gold icons (use Canva): 📅 Booking, 👥 Team, 💬 Group, 📋 Education, ⭐ Reviews, 🎯 Specialties

TikTok profile: Same logo, dark/neutral banner if available

TYPOGRAPHY

Post graphics: Inter (headings), Manrope (labels/tags) — consistent with website and all WCP materials

Caption style: Warm but professional, never clinical. Use em-dashes, not hyphens

Emoji usage: Consistent set — 🕯️ 🧠 💛 🌿 📅 👥 — not random. Gold heart 💛 over red ❤️

ALIGNMENT WITH WEBSITE

Dark theme mirrors wcp.com.pl — professional, not playful

Gold accents create warmth without being "cute"

Same font family (Inter + Manrope) as web = brand cohesion

CTA language consistent: "Book a session" not "Zarezerwuj" or "Kliknij"

Link in bio always points to wcp.com.pl (via Linktree)

SECTION 5

Content Pillars — 5 Content Pillars

A structure that prevents asking "what should we post today?"

Every WCP post fits into one of five pillars. This isn't a limitation — it's a framework that ensures variety and consistency. Proportions: Educational 30%, Behind the Scenes 20%, Community 20%, Testimonials 15%, Promotional 15%.

📚

1. EDUCATIONAL – PSYCHOEDUCATION

Therapy types, mental health facts, myths vs facts, psychological mechanisms. Builds expert positioning, gives value without expecting anything in return.

Examples: Carousel "5 mitów o depresji" · Reel "Co to jest EMDR?" · Post "CBT vs psychodynamiczna — jaka różnica?" · Story quiz "Jaki styl radzenia sobie ze stresem masz?"

🪞

2. BEHIND THE SCENES

The clinic, the therapists, the process. We show that WCP is real people in a real place — not an abstract service. Builds trust and lowers the barrier to first contact.

Examples: Reel "Dzień z życia terapeuty WCP" · Carousel "Jak wygląda gabinet?" · Post "Poznaj [imię] — specjalizacja, filozofia pracy" · Therapist story takeover

👥

3. COMMUNITY – COMMUNITY & EVENTS

Events, support groups, workshops, local initiatives. WCP isn't just a service — it's part of the community. This pillar builds belonging and loyalty.

Examples: Event "Otwarte Drzwi WCP" · Post about a new support group · Carousel "Jak działają grupy terapeutyczne?" · Live Q&A z terapeutą

⭐

4. TESTIMONIALS – TESTIMONIALS & STORIES

Patient stories (anonymised), reviews, transformations. The most powerful conversion pillar — people trust people, not ads. Always fully anonymised with consent.

Examples: Post "Historia K.: Jak terapia zmieniła moje podejście do lęku" · Carousel "Co pacjenci mówią o WCP" · Story "Dlaczego zdecydowałem/am się na terapię" (anonimowo)

🎯

5. PROMOTIONAL – BOOKING CTAS

Direct booking prompts, specialty information, availability, promotions. Not aggressive — but clear. Every post from this pillar has a specific CTA.

> **Examples:** Post "Nowy terapeuta w zespole — [imię], specjalizacja: trauma" · Reel "Jak umówić wizytę online w 3 krokach" · Story countdown to group launch · Post "Wolne terminy — tydzień 15-21 kwietnia"

WEEKLY CONTENT RHYTHM

DAY	THEME	PILLAR	EXAMPLE
Monday	Motivation	Educational	Quote + tip for the week
Tuesday	Education	Educational	Carousel: myth vs fact
Wednesday	Workshop	Educational	Practical exercise (breathing, grounding)
Thursday	Team	Behind the scenes	Therapist spotlight
Friday	Lighter	Social	Meme / relatable therapy moment
Saturday	Story	Testimonials	Patient story (anonymized)
Sunday	Reflection	Promotional	"What supported you this week?" + CTA

SECTION 6

First 30 Days — Launch Plan

Week by week, post by post — specifics, not theory

> **Preparation (before Day 1):** Set up Linktree, update bio on all platforms, prepare 6 highlight covers on Instagram, create 3 Canva templates (carousel, static, story), record 2-3 preliminary Reels.

WEEK 1 (DAYS 1-7) — "WHO WE ARE"

Goal: Show that the profile is alive. Build a foundation — who we are, what we do, how we work.

DAY 1 — MONDAY IG

🕯️ Jesteśmy tu. Warmińskie Centrum Psychoterapii — 20 terapeutów, 3 lokalizacje, sesje online z całej Polski.

To nie jest kolejny profil o "pozytywnym myśleniu". To miejsce, gdzie mówimy o zdrowiu psychicznym szczerze — bez stygmatyzacji, bez uproszczeń.

DAY 2 — TUESDAY IG CAROUSEL

5 mitów o terapii, w które nadal wierzysz 🧠

Slide 1: "Tylko wariaci chodzą na terapię" → FAŁSZ. Terapia jest dla każdego, kto chce lepiej zrozumieć siebie.
Slide 2: "Terapeuta powie mi, co robić" → FAŁSZ. Terapeuta pomaga Ci znaleźć własne odpowiedzi.
Slide 3: "Terapia to narzekanie na dzieciństwo" → FAŁSZ. To praca nad tu i teraz — zrozumienie przeszłości pomaga, ale nie jest celem.
Slide 4: "Musisz być w kryzysie, żeby iść na terapię" → FAŁSZ. Najlepszy czas na terapię jest wtedy, kiedy jeszcze dajesz radę.
Slide 5: "Terapia online jest mniej skuteczna" → FAŁSZ. Badania pokazują równie skuteczną jak stacjonarna.

Który mit zaskoczył Cię najbardziej? 👇

DAY 3 — WEDNESDAY REEL TT

DAY 8 — MONDAY IG

Monday bez presji 🕯️

To wystarczy. Jesteś wystarczający/a 💛
#WCP #MondayWithoutPressure #SelfKnowledge #ZdrowiePsychiczne

DAY 9 — TUESDAY IG CAROUSEL

Depresja vs Smutek — jaka różnica? 🌧️

Slide 1: Sadness is natural. It passes. It has a reason.
Slide 2: Depresja nie musi mieć "powodu". Nie przechodzi sama. Wpływa na sen, apetyt, koncentrację.

Slide 3: Smutek: "Jest mi smutno z powodu X"
Slide 4: Depresja: "Jest mi ciężko i nie wiem dlaczego"
Slide 5: If the heaviness doesn't lift after 2+ weeks — it's worth talking to a professional.

Nie czekaj, aż "minie samo". Pomoc jest bliżej niż myślisz 💛

DAY 19 — FRIDAY REEL TT

Dlaczego wypalenie zawodowe NIE jest lenistwem 🔥

Lenistwo: "Nie chce mi się"
Wypalenie: "Nie mam siły, nawet jeśli chcę"

That's the difference between choice and inability.

Jeśli czujesz, że "pali Ci się na obu końcach" — nie jesteś lenwy/a. Potrzebujesz wsparcia 💛

#WCP #Wypalenie #Burnout #ZdrowiePsychiczne #Praca

DAY 20 — SATURDAY FB

"Mój mąż nie chciał iść na terapię. Powiedział, że to nie dla mężczyzn. Po trzech sesjach powiedział: 'Czuję, że ktoś w końcu mnie słucha bez oceniania.' To zmieniło nasz małżeństw." — M., 41 lat, Elbląg

Męskie zdrowie psychiczne jest tematem tabu. W WCP tworzymy przestrzeń, gdzie mężczyźni mogą być szczeri 💛

1. "Zawsze miałeś/aś ADHD" — nie "nabyłeś/aś"

SECTION 8

KPIs & Tracking — Metrics and Goals

What we measure, how often, and what we do with it

Rule: We do not measure everything. We measure what drives decisions. Likes are nice — but bookings are business. Every KPI must have an owner, a target, and a review cadence.

MONTHLY KPI TARGETS

INSTAGRAM FOLLOWERS

+5–10%/mo

Target: 1,500 in 6 months (from ~300)

ENGAGEMENT RATE

3–5%

IG health industry average: 2.5%. Target: above average.

PROFILE VISITS → WEBSITE

15–20%

Conversion from profile to link click. Measures CTA effectiveness.

DM INQUIRIES

10–20/mo

Direct service inquiries. The most important leading indicator.

STORY COMPLETION

70%+

Percentage of viewers who watch stories to completion. A measure of content quality.

REEL SAVES/SHARES

50+/mo

Saves = value. Shares = virality. The most important Reels metrics.

BOOKING ATTRIBUTION

Track

"How did you hear about us?" in the booking form. Social media as a source.

FACEBOOK EVENT RSVPS

20+/event

A measure of local engagement and community building.

REVIEW CADENCE

FREQUENCY	WHAT	WHO	ACTION
Weekly	Post performance, DM responses	Community Manager	Adjust next week's content
Monthly	Full KPI dashboard review	Content Strategist + Karolina	Strategy adjustments, new content ideas
Quarterly	Deep analysis: what worked, what didn't, ROI	Full team	Calendar revision, budget review, pivot decisions

QUARTERLY REVIEW QUESTIONS

- Which posts had the highest engagement? Why?
- Which day/time works best? (Adjust scheduling)
- Which awareness dates resonated, and which "flopped"?
- Are we attracting ideal patients or just likes?
- What is our cost per inquiry (if we advertise)?
- How many bookings come from social media vs other channels?

BOOKING ATTRIBUTION — "HOW DID YOU HEAR ABOUT US?"

Add a "How did you hear about us?" field to the booking form (Booknetic). Options:

- Instagram
- Facebook
- TikTok
- Google Search
- ZnanyLekarz
- Friend referral
- Other

This is the only reliable source of data on real social media ROI. Without it — we're guessing.
