🔥 TOP 5 PRIORITY ACTIONS

1. **Recruit a Psychiatrist**
   WCP's #1 capability gap vs ANIMA. Job posting ready, target Aug 2026. This unlocks ADHD pathway independence and prescription capability.

2. **Fix Google Ads — Stop the Bleed**
   ROAS at breakeven. "Individual Therapy" campaign has 0 conversions — pause today. Add NFZ negatives, fix Elbląg CPA (2× Olsztyn). 30-day plan ready.

3. **Launch Social Media & Online Therapy**
   60+ date calendar, 28 post concepts ready. Target 15% online revenue in 6 months. 8,800 PLN 6-month budget — modest, high upside.

4. **Pursue NFZ Contract**
   5-10× patient pool expansion. 12-24 month timeline. ANIMA already has this — WCP must close the gap. Begin application now.

5. **Open Bartąg Location (Low-Risk Rental)**
   25-35K initial investment. 7-8 sessions/week break-even by month 2-3. Karolina's vision validated with 3 OLX listings identified.

> ⚠️ **Critical Warning:** ANALIZA "Przychody" column is NOT revenue — it's 80-95% tax payments. Do NOT use ANALIZA figures for business decisions. True revenue is 2,409,461 PLN from bank statements. Using ANALIZA numbers would dramatically understate the business and could lead to catastrophic strategic errors.

> ✅ **Confidence Signal:** Q1 2026 revenue at 678,870 PLN represents +34.7% YoY growth. The business is accelerating, not plateauing. All strategic moves are backed by a healthy and growing cash position.

SECTION 02

Financial Health

Corrected methodology · Key figures · Cost breakdown

⚠️ **METHODOLOGY CORRECTION:** Previous analyses using ANALIZA "Przychody" as revenue were fundamentally wrong. ANALIZA's "Przychody" column contains 80-95% tax payments (ZUS, PIT advances, VAT), NOT actual business revenue. **True revenue must be calculated from bank statement inflows.**

+34.7%

YOY GROWTH VS Q1 2025

Q1 2026 shows strong acceleration. At this run rate, 2026 annual revenue could reach **2.7M+ PLN** — a significant step up from 2025.

COST STRUCTURE BREAKDOWN

CATEGORY	AMOUNT (PLN)	% OF REVENUE	TREND
Operating Costs	601,558	25.0%	**Stable**
ZUS Contributions	500,150	20.8%	**Structural**
PIT	327,395	13.6%	**Structural**
Net Cash	**1,219,592**	**50.6%**	**Healthy**

ANALIZA COST ANALYSIS: UOP → B2B SHIFT

ANALIZA data reveals a significant structural shift in employment costs as WCP transitioned from UoP (employment contracts) to B2B:

PERIOD	EMPLOYEE COSTS (PLN)	INTERPRETATION
Early 2025	428,000	UoP contracts (higher employer costs)
Mid 2025	179,000	Transition to B2B (lower direct costs)
Late 2025	218,000	B2B stabilisation + new hires

> **Key Takeaway:** The UoP → B2B shift saved WCP ~200K+ PLN in direct employer costs. However, this doesn't mean therapists earn less — B2B contractors set their own rates. The savings come from eliminating employer-side ZUS, severance obligations, and paid-leave requirements.

HR DEVELOPMENT PLAN: INVESTMENT → REVENUE

🎯 **Year 1 Investment: 426,000 – 580,000 PLN** HIGH PRIORITY

Projected Revenue Return: 720,000 – 1,070,000 PLN

Payback Period: 6 – 9 months

This is not a cost center — it's a revenue multiplier. Every therapist who gains a school certification unlocks higher session rates and new patient segments.

PRIORITY ACTIONS

P1 **Recruit Psychiatrist**
CRITICAL Target: August 2026. Job posting is ready. This single hire closes WCP's biggest capability gap vs ANIMA and enables independent ADHD diagnosis pathway.

P2 **First Wave: 6 Therapists Into CBT/Gestalt Schools**

HIGH IMPACT Expands certified capacity in the two most demanded modalities. Also: couples therapy expansion (384,000 – 576,000 PLN/year revenue potential with just 2-3 additional trained couples therapists).

P3 **Group Therapy Facilitator Training**

MEDIUM 5 therapists nominated. Group therapy is high-margin, underutilized at WCP. Supervision budget: 6,600 – 7,900 PLN/month for ongoing professional development.

SECTION 04

Competitor Threat: ANIMA

Profile · Asymmetries · WCP counter-advantages

⚠️ **ANIMA is the #1 direct threat.** With 6 locations, NFZ contracts, an in-house psychiatrist, PTP certification, a day ward, and 40+ specialists — ANIMA has structural advantages WCP cannot ignore. But ANIMA has a critical weakness: **3.2/5 Google reviews (58 reviews)**. WCP sits at **4.7/5 (119 reviews)**.

Psychiatrist Consultation	300	N/A	**Gap — must recruit**
Psychotherapy Session	200	~200	**Parity**
DIVA-5 ADHD Diagnosis	1,200	600	**50% cheaper**

WCP'S COUNTER-ADVANTAGES

1 Price Dominance on ADHD

DIVA-5 at 600 PLN vs ANIMA's 1,200 PLN is not a small advantage — it's **a dealbreaker for price-sensitive patients**. Combined with MOXO (unique in the region), WCP owns the ADHD diagnostic pathway on value. Promote aggressively.

2 Review Score Dominance

4.7/5 vs 3.2/5 is a **massive trust gap**. Patients read reviews before booking. This is WCP's strongest organic competitive moat. Protect it, grow it, weaponize it in marketing.

3 Brand Warmth

WCP feels like a place where humans help humans. ANIMA feels like an institution. In mental health, the emotional register of your brand is the product. Lean into warmth — it's a structural advantage, not just aesthetics.

CRITICAL ISSUES FOUND

🔴 **"Individual Therapy" Campaign: Zero Conversions** PAUSE NOW

This campaign is spending budget with **zero conversions**. Every PLN spent is wasted. Pause immediately and reallocate budget to brand campaign and high-performing local keywords.

🔴 **NFZ Keyword Leak** URGENT

WCP does NOT have NFZ contracts. Yet ads are triggering on NFZ-related searches, wasting clicks on patients who can't afford private therapy. Add comprehensive NFZ negative keywords immediately.

🟡 **625/677 Keywords With No Quality Score** HIGH EFFORT

92% of keywords lack a Quality Score, meaning Google hasn't gathered enough data to evaluate them. This indicates low impression volume, poor ad-to-keyword relevance, or both. A systematic quality score improvement effort is needed.

30-DAY OPTIMIZATION PLAN

D0

Day 0 — Immediate Actions

Pause the "Individual Therapy" campaign. Add NFZ negative keywords across all campaigns. Set Elbląg bid adjustment to -30% while investigating.

D7

Day 7 — Elbląg Fix

Create separate Elbląg campaign with tailored ad copy and lower budget. Analyse landing page conversion for Elbląg traffic — may need location-specific messaging.

D14

Day 14 — Match Type Shift

Move high-spend broad match keywords to exact/phrase match. This reduces wasted spend on irrelevant queries and improves Quality Score over time.

D30

Day 30 — Budget Reallocation + New Campaigns

Shift budget from underperformers to brand + local campaigns. Launch new Online Therapy campaign (50 PLN/day). Launch ADHD-specific campaign targeting "ADHD diagnosis" keywords.

SECTION 06

ANIMA Counter-Strategy

Priority actions · Psychiatrist recruitment · NFZ pursuit · ADHD defense

FULL ANIMA COUNTER-STRATEGY REPORT →

P1 **Recruit Psychiatrist — Timeline: Aug 2026**

CRITICAL This is the single highest-leverage strategic move. A psychiatrist on staff enables: independent ADHD diagnosis pathway, medication management, insurance partnerships, and parity with ANIMA's offering. **Job posting is ready for distribution.**

P2 **Pursue NFZ Contract — 5-10× Patient Pool**

HIGH IMPACT ANIMA already has NFZ contracts. Without one, WCP is invisible to the ~70% of Polish patients who search NFZ first. Timeline: 12-24 months for application processing. Begin the application immediately — this is a strategic must, not an option.

P2 **ADHD Flagship Defense — Price + Uniqueness**

DEFEND WCP's DIVA-5 at 600 PLN (vs ANIMA 1,200) + MOXO (unique in region) makes WCP the undeniable value leader for ADHD diagnosis. Promote this aggressively in all channels — Google Ads, social, website, ZnanyLekarz.

P2 **SEO & Review Attack — Target ANIMA's 3.2/5 Weakness**

QUICK WIN When patients search "ANIMA psychotherapy" or "ANIMA reviews," WCP should appear with content that highlights the review gap. Not negative campaigning — but content like "How to choose a therapist in Olsztyn — what to look for" that naturally surfaces review scores.

> **Strategic Note:** WCP does not need to match ANIMA facility-for-facility. The winning strategy is to be **the better choice**, not the bigger one. Better reviews, better prices, warmer brand, unique diagnostics (MOXO). The psychiatrist hire + NFZ contract close the only gaps that actually matter.

PROFILE UNIFICATION PLAN

All WCP social media profiles unified under a consistent visual identity:

Color scheme: Dark theme, gold accents (matching this report)

Bios: Consistent across platforms — same tagline, same contact info, same link
Imagery: No stock photos. Real therapists, real spaces, warm lighting

Logo: Crown + WCP wordmark prominently placed

PLATFORM STRATEGY

📸 Instagram — Carousels + Reels

Primary audience: 25-40, aesthetic-aware, already consuming mental health content.

Carousels: Education pillars — "5 signs you should talk to a specialist", "CBT vs Gestalt — which therapy is right for you?"

Reels: Short-form therapist tips, myth-busting, "day in the life" content

Stories: Daily presence — polls, Q&A, behind-the-scenes, booking reminders

👥 Facebook — Community + Events

Primary audience: 30-55, parents, professionals, life-transition demographics.

Community posts: Longer-form educational content, therapist spotlights

Facebook Live: Monthly Q&A sessions with therapists

Events: Webinars, open days, workshops

Facebook Group: "Psychological Support — Warmia and Mazury" (moderated)

🎵 TikTok — Therapy Tips & Myth-Busting

Primary audience: 18-30, Gen Z, high mental health content engagement.

Format: Authentic, phone-shot, therapist-on-camera content

Topics: "Myths about therapy", "POV: Your first session", "3 techniques for a panic attack"

Tone: Real, warm, zero corporate polish. Authenticity > production value

Pilot: 4 videos from 2 willing therapists → measure before scaling

30-DAY LAUNCH: POST CONCEPTS (SUMMARY)

WEEK	INSTAGRAM	FACEBOOK	TIKTOK
Week 1	4 carousel + 2 reels	3 community posts	2 myth-busting videos
Week 2	4 carousel + 2 reels	3 community + 1 event	2 tips videos
Week 3	3 carousel + 3 reels	3 community posts	2 POV format
Week 4	3 carousel + 3 reels	2 community + 1 live	2 Q&A format

Ethical Hook: Never exploit vulnerability for engagement. Lead with empowerment, normalisation, and practical value. Always include crisis line info (116 123) on mental health content. No clinical cure claims.
